The BEL 505 is an extremely compact Semi-Automatic Case Erector And Pack Station designed specifically for applications on manual case packing lines. When connected to any BEL case sealer it enables one person to form, pack and seal corrugated cases in a single operation.

Installing the BEL 505 in manual case packing lines improves productivity and eliminates extra labor needed to set-up and close case bottom flaps prior to loading. Safety is improved by eliminating costly Repetitive Strain Injury problems.

At a fraction of the cost of fully automatic case erectors, the BEL 505 provides an economical and effective way of eliminating manual labor required to pre-form cases for hand packing lines.
Bel 505 Semi-Automatic Case Erector

To operate, the packer inserts an opened case into the BEL 505. The machine instantly folds the bottom flaps and holds the case in place for efficient "two hand" packing. When fully loaded, the operator easily pushes the case into the case sealer for gluing/taping/stapling of top and bottom flaps. The BEL 505 is user-friendly and extremely simple to operate using the following sequence:

1. Open flat case blank and place in machine.
2. Load product in box.
3. Push loaded box away into case sealer.

Case size changes are easily accomplished by the packer in less than one minute using two simple adjustments with case size reference scales. Machine frame adjusts with box width improving ergonomics so the package is within close reach at all times.

### Machine Specifications

#### Air Requirements
- .01 CF/Cycle @ 80 PSI, (6 Bars)

#### Construction
- Welded, anodized aluminum frame.
- Attractive stainless steel covers.
- Stainless steel fasteners and adjustable leg extensions.
- All operating components fabricated from corrosion resistant materials for ease of cleaning and maintenance.

ABOUT BEST PACKAGING INC.

Best Packaging Inc. maintains and repairs some of the most complex packaging lines. Since 1997, we have been consulting, designing, and implementing packaging solutions to offer the best for your operations. In order to deliver our customers the greatest return on their investment, we represent a variety of different brands of end-of-line packaging equipment to ensure we’re matching the right solution for your packaging needs.

We only align ourselves with quality brands to make sure we are delivering the best value. It is our goal to provide the highest quality service to make your job easier and more productive.

WHAT MAKES US BEST?

- Best Packaging Inc has over 20 years of experience, designing, installing, and servicing some of the most complex packaging lines.
- Most end-of-line equipment brands offer different capabilities in terms of ease, automation, integration, and performance. With our extensive analysis of packaging machinery, we can match the best systems with your needs based on the versatility of the job.
- Best Packaging’s services include maintaining the equipment, and training operators how to visually monitor the standard. We’re available 24/7 to support your needs.
- Steve Kudia, Owner of Best Packaging, serves on the ASTM committee. As an ASTM member, Steve Kudia is part of a prestigious worldwide network of technical experts. He aims to make sure processes stays efficient by monitoring trends and educating customers on how they can improve their supply chain performance.

EQUIPMENT WE OFFER

- Stretch Wrappers (Semi-automatic and Automatic)
- Shrink Wrappers
- Tray and Case Loaders
- Tray and Case Erectors
- Corrugated Case Formers
- Conveyors
- Palletizers
- Strappers & Banders (Handheld and Automatic)
- and many more....
